Subject Index

Acidified glycerol lysis test, evaluation of (HOFFMANN *et al*), 252
Adenosine deaminase in blood cells in various neurological conditions (NORSTRAND), 254
Anaemia, aplastic, decreased sialic acid content of erythrocytes in patients with (YOSHIDA *et al*), 351
Anaemia, aplastic, in adults, androstane therapy to treat: an uncontrolled pilot study (GARDNER & JUNEJA), 295
Anaemia, congenital dyserythropoietic, type III, precipitation of beta-globin chains within the erythropoietic cells of a patient with (WICKRAMASINGHE & GOUDSMIT), 250
Androstane therapy to treat aplastic anaemia in adults: an uncontrolled pilot study (GARDNER & JUNEJA), 295
Anticoagulant, effect on platelet associated IgG (LUCAS & HOLBURN, 111
Antithrombin III congenital defect in a premature newborn, neonatal diagnosis of (DE STEFANO *et al*), 117
Antithrombin III familial variant (AT Dublin), a new, with possible increased frequency in children with cancer, identification and characterization of (DALY *et al*), 457
Antithrombin III Northwick Park: demonstration of an inactive high MW complex with increased affinity for heparin (LANE *et al*), 451
Antithrombin III Pescara: a defective AT III variant with no alterations of plasma crossed immunoelectrophoresis, but with an abnormal crossed immunoelectrofocusing pattern (LEONE *et al*), 187
Autoimmune haemolytic anaemia in childhood associated with non-complement binding IgM autoantibodies (SALAMA & MUELLER-ECKHARDT), 67

B-cell lymphoma, advanced, effective multiagent chemotherapy in children with: who remains the high risk patient? (PHILIP *et al*), 159
Blood group antibody anti-c, a preparation calibrating the assay of (PHILLIPS), 57
Bone marrow, T-cell depleted, cytogenetic follow-up studies of recipient of (LAWLER *et al*), 143
Bone marrow transplantation, autologous and allogeneic, different repopulation kinetics of erythroid (BFU-E), myeloid (CFU-GM) and T lymphocyte (TL-CFU) progenitor cells after (VELLENGA *et al*), 137
Book reviews
A Colour Atlas of AIDS, 125
Automated Blood Counts and Differentials: A Practical Guide, 125
Clinical Haematology: a Problem Orientated Approach, 258
Folates and Pterins, Volume 3: *Nutritional, Pharmacological and Physiological Aspects*, 259
Hemoglobin: Molecular, Genetic and Clinical Aspects, 258
Methods in Haematology: The Hemoglobinopathies, 258
Radionuclides in Haematology, 125

Childbirth, normal, plasma fibrinolysis during and after (MACKINNON *et al*), 339
Coagulation abnormalities following Russell's viper bite in Burma, evolution of (THAN *et al*), 193

Danazol-induced thrombocytopenia (RABINOWE & MILLER), 383
Double esterase (DE) positivity in AML cells (MASTRANGELO *et al*), 119

Enzyme cytochemistry of neutrophil granulocytes (BENDIX-HANSEN), 127
Erythroid progenitor cells (BFU-E, CFU-E), changes of the phenotype of, and their progenies during early steps of differentiation (PESCHEL *et al*), 131
Erythroleukaemia, familial, clinical and cytogenetic features of (LEE *et al*), 313
Erythropoiesis during an erythroblastic phase of chronic myeloproliferative disorder associated with monosomy 7 (KOJIMA *et al*), 391
Erythropoietin, human recombinant, effect on human marrow megakaryocyte colony formation *in vitro* (DESSYPRIS *et al*), 265

FAB classification for myelodysplastic syndromes, utility of: investigation of prognostic factors in 237 cases (KERKHOFS), 73
Factor VIII multimers, abnormal, demonstration of, in acquired von Willebrand's disease associated with a circulating inhibitor (BALL *et al*), 95
Factor IX concentrates in dogs, studies on the effect of heat treatment on the thrombogenicity of (LITTLEWOOD *et al*), 463
Ferritin-binding protein present in human serum, characteristics of (BELLOTTI *et al*), 489
Ferritin, intravenously administered hepatic, in normal, phenylhydrazine-treated and scorbutic guinea-pigs, the fate of (SIMON *et al*), 239
Fibrinogen abnormalities, nine congenital, investigation of: direct analysis of plasma fibrinogen-derived fibrinopeptides by high-performance liquid chromatography (SOUTHAN *et al*), 469
Fluorouracil (5-FU) induced acute immune haemolytic anaemia (SANDVEI *et al*), 357

Gerbich reactivity in 4.1(–) hereditary elliptocytosis and protein 4.1 level in blood group Gerbich deficiency (SONDAG *et al*), 43
'Giant platelet syndrome', a new familial, with structural, metabolic and functional abnormalities of platelets due to a primary megakaryocyte defect (GREAVES *et al*), 429
Glycoprotein IIb–IIIa complex, platelet, detection of circulating human platelet fragments using monoclonal antibodies against (VOS *et al*), 447
G-peptide, human serum ferritin, is recognized by anti-L ferritin subunit antibodies and concanavalin-A (SANTAMBROGIO *et al*), 235
Graft rejection after T-cell depleted marrow transplantation: role of fractionated irradiation (GUYOTAT *et al*), 499
Graft rejection following T lymphocyte depleted bone marrow transplantation with two different TBI regimens (IRIONDO *et al*), 246
Graft-versus-host disease in allogeneic bone marrow transplantation, influence of underlying disease and donor sex on the incidence of (BEELEN *et al*), 385
Grey platelet syndrome, abnormal calcium transport into microsomes of (ENOUF *et al*), 437
Grey platelet syndrome: studies on platelet alpha-granules, lysosomes and defective response to thrombin (SRISTAVA *et al*), 441
Growth fractions in human permanent cell lines and lymphoid tumours, immunohistochemical determination of: a critical comparison of the monoclonal antibodies OKT9 and Ki-67 (PILERI *et al*), 271

Haemodialysis patients, androgen therapy in. II. Effects on red cell metabolism (SOLOMON & HENDLER), 223
Haemolysis, drug-induced immune, haemolytic 'efficiency' of C5b-9 complexes in: role of cellular C5b-9 distribution (SALAMA *et al*), 217
Haemopoietic reconstitution after allogeneic bone marrow transplantation in man: recovery of haemopoietic progenitors (CFU-Mix, BFU-E and CFU-GM), 5
Hepatitis B virus, frequent lymphocytes infection by, in haemophiliacs (LAURÉ *et al*), 181
Heptest: effect of concomitant oral anticoagulant therapy (BAUGHAN *et al*), 382
HIV related disease, peripheral blood and bone marrow abnormalities in patients with (TREACY *et al*), 289
HTLV-III infection, anticardiolipin antibodies associated with (CANOSO *et al*), 495

Interleukin-1 producing ability of leukaemia cells and its relationship to morphological diagnosis (FURUKAWA *et al*), 11

Kell antigens, red cell, acquired loss of (VENGELEN-TYLER *et al*), 231

Leukaemia, acute lymphocytic, bad risk, and lymphoblastic NHL, short-term high-dose treatment in (WILLEMZE *et al*), 501
Leukaemia, acute, in remission, autologous bone marrow transplantation for (PREISLER & RAZA), 377
Leukaemia, acute myeloid, m-AMSA and VP-16 combinations in the treatment of (CHILD *et al*), 245
Leukaemia, adult acute lymphoblastic: is cell proliferation related to other clinical and biological features? (FRENCH *et al*), 419
Leukaemia, B-cell prolymphocytic, interferon response in (JACOBS *et al*), 375
Leukaemia cell lines, three permanent human, producing immunoreactive calcitonin, establishment of (KOEPPLER *et al*), 405
Leukaemia, chronic lymphocytic, simultaneously increased expression of the *c-myc* and μ chain genes in the acute blastic transformation of (TORELLI *et al*), 165
Leukaemia, chronic myelomonocytic, a multivariate analysis of prognostic factors in, according to the FAB criteria (RIBERA *et al*), 307
Leukaemia, chronic neutrophilic, κ light chain myeloma developing in a patient with (ZOUMBOS *et al*), 504
Leukaemia, hairy cell, haemolysis of unusual antibody specificity in (O'DONNELL & KEEN), 499
Leukaemia, hairy cell, platelet defect in PDGF and β thromboglobulin content in: improvement after interferon therapy (DUPUY *et al*), 107
Leukaemia, hybrid acute (GALE & BEN BASSAT), 261
Leukaemia, hybrid, of T cell and myeloid lineages: cytogenetic distinction from second (induced) malignancy (SIMPSON & MOTT), 401
Leukaemia, hypoplastic acute: cytogenetic evidence for differentiation *in vivo* in response to low-dose ARA-C (REILLY *et al*), 384
Leukaemia, myelomonocytic, chronic and subacute, in the adult: a report of 60 cases with special reference to prognostic factors (FENAUX *et al*), 101
Leukaemia patients, generation of non MHC restricted killing in non-cytotoxic T-lymphocytes from (MATERA *et al*), 151

Leukaemia, Ph[1] positive chronic granulocytic, haemopoietic recovery from (CALVO *et al*), 500
Leukaemia, relationship between chronic lymphocytic and prolymphocytic. IV. Analysis of survival and prognostic features (MELO *et al*), 23
Leukaemias and lymphomas, T-cell acute, in complete remission, abnormal proliferation of T-colony-forming cells from peripheral blood of patients with: potential prognostic value (ALLOUCHE *et al*), 411
Lupus-type coagulation inhibitor in hairy cell leukaemia and resolution with splenectomy (DUNCOMBE *et al*), 120
Lymphocytes, large granular, rapid reappearance of, with concomitant reconstitution of natural killer activity after human bone marrow transplantation (NIEDERWIESER *et al*), 301
Lymphoid cells, Leu 11 positive NK active, functional analysis of a clonal expansion of (HART *et al*), 277
Lymphoma, malignant, superoxide dismutase, glutathione peroxidase and catalase in the red cells of patients with (BEWICK *et al*), 347

Megakaryocyte lineage, detection of cells of, in haematological malignancies by immunoalkaline phosphatase labelling cell smears with a panel of monoclonal antibodies (ERBER *et al*), 87
Mitozantrone-induced toxicity and DNA strand breaks in leukaemic cells (HO *et al*), 51
Multiple myeloma in a pair of twins (COMOTTI *et al*), 123
Multiple sclerosis and lymphoma/leukaemia, a possible association between (BERNARD *et al*), 122
Myelodysplasia, familial: progressive disease associated with emergence of monosomy 7 (PAUL *et al*), 321
Myelodysplastic syndromes, haem arginate as a treatment for (RUUTU *et al*), 425
Myelodysplastic syndromes, increased platelet associated immunoglobulin in (HALL *et al*), 245
Myelofibrosis, clinical and laboratory studies of 1,25-dihydroxycholecalciferol in (MCKINLEY *et al*), 252
Myelofibrosis, idiopathic, the role of 1,25-dihydroxyvitamin D_3 ($1,25(OH)_2D_3$) in the treatment of (EUGSTER *et al*), 381
Myelofibrosis, primary and secondary, immunoreactive prolyl hydroxylase in patients with (WANG *et al*), 171
Myeloma, multiple, bone marrow pattern and clinical staging in (CARBONE *et al*), 502

Neoplasms, lymphoid or plasma cell, coexistent (STARK *et al*), 376
Neutrophil FC-receptor expression in cells of the circulating and marginated pools (BAGLIN & POLLOCK), 387

Oncogene and beta-actin expression, differential pattern of, in leukaemic cells from AML patients (BLOMBERG *et al*), 83

Phospholipase A_2 from bee venom, osmotic properties of human erythrocytes treated by (VAYSSE *et al*), 361
Placental transport of [^{3}H]vitamin K_1 in rats (HAMULYÁK *et al*), 335
Plasmodium falciparum, effects of iron and desferrioxamine on the growth of, *in vitro* (POLLACK *et al*), 256
Platelet density subpopulations, survival of (MEZZANO *et al*), 505
Platelet function, interactions between prostacyclin analogue ZK 36374 and heparin in their effects upon (YARDUMIAN *et al*), 325
Platelets, human blood, room temperature ADP induced first stage hyperaggregation of: a previously undescribed phenomenon and its relationship to spontaneous cold induced platelet aggregation (COHEN *et al*), 331
Polycythaemia, primary proliferative, treatment of, by venesection and busulphan (D'EMILIO *et al*), 121
Pregnancy, an improved acidified glycerol lysis test (AGLT) used to detect spherocytes in (ACHARYA *et al*), 343
Pyrimidine 5′-nucleotidase, human erythrocyte, from five patients with pyrimidin 5′-nucleotidase deficiency, chromatographic analysis of (HIRONO *et al*), 35

RAEB, immunologic classification of blast cells in (RUIZ-ARGUÉLLÉS), 124
RAEB in a patient with chronic granulated T-lymphocytosis (BASSAN *et al*), 503
Red-cell filterability: correcting for the cell size effect (BARTON *et al*), 248
Red cell survival data, analysis of (DORNHORST *et al*), 117
Rh antibodies, naturally occurring, the effect on the survival of serologically incompatible red cells (CONTRERAS *et al*), 475
Rheumatoid arthritis and other inflammatory arthritides, serum erythropoietin in: relationship to anaemia and the effect of anti-inflammatory treatment (BIRGEGÅRD *et al*), 479

Seroconversion of HTLV-III/LAV in Japanese haemophiliacs, a longitudinal study on (IIZUKA *et al*), 249
Sickle cell anaemia patients from Kenya, Haplotype and α globin gene analysis in (OJWANG *et al*), 211
Sideroblasts, ring, significance in refractory anaemia with excess of blasts (YOSHIDA *et al*), 119
Smoking and blood rheology, dose–effect relationship between (ERNST *et al*), 485
Spherocytosis, hereditary, revealed by human parvovirus infection (NG *et al*), 379
Spleen and haemolysis: evaluation of the intrasplenic transit time (FERRANT *et al*), 31
Systemic lupus erythrematosus, anti-granulocyte opsonic activity in sera from patients with (HADLEY *et al*), 61

T-cell receptor gene, rearrangement for, and co-expression of immature T-cell markers and natural killer phenotype, in a patient with acute lymphoblastic leukaemia (PIZZOLO *et al*), 17
Th activation, red cell: biochemical studies (HERMAN *et al*), 205
Thalassaemia, β-, the use of monoclonal antibodies UCHβ and UCHγ for the antenatal diagnosis of (ALLEN *et al*), 199
Thalassaemia intermedia, association with a beta-globin gene haplotype (THEIN *et al*), 367
Thrombocytopenia, heparin-induced, in pregnancy (COPPLESTON & OSCIER), 248
Thrombosis, familial venous, increased concentration of the fast-acting plasminogen activator inhibitor in plasma associated with (JØRGENSEN & BONNEVIE-NIELSEN), 175
Transferrin, mucosal, role in intestinal absorption (OSTERLOH *et al*), 1

Vinblastine-loaded platelet transfusion in an alloimmunized patient (WONG *et al*), 380

Waldenström's macroglobulinaemia, analysis of leucocyte differentiation antigens in blood and bone marrow from patients with (KUCHARSKA-PULCZYNSKA *et al*), 395
